

Maximo Vendor Punchout Catalog

Our effective solution **streamlines your procurement process**, giving you access to **customized product catalogs** and the ability to make **purchases directly from your procurement system**.

The solution is helping our customers and partners and here's what our integration can do for your business:

Increased Visibility and Trust in the Supply Chain

Making the same data available to everyone in the supply chain increases reliability and accountability. You'll have access to accurate price information, inventory or availability, and confirmation of important dates such as manufacturing, shipping, and delivery.

Real-Time Access

Access real-time product catalogs and pricing, ensuring that your purchasing process is accurate and up-to-date. Say goodbye to relying on outdated information.

Increased Efficiency

Automate the purchasing and order management process, saving you time and allowing you to focus on other important aspects of your business. You can easily compare prices, access full product descriptions and ratings, and view availability, shipping options, and bulk discounts.

Easy Integration

Our integration takes only **8 hours** to configure and **does not require any coding**. It's a quick and easy solution for businesses of all sizes, and can be implemented without disrupting your existing processes. Integration platforms like **Amazon, Grainger, and eBay**.

Catalog Availability

Access your vendor's customized product catalog from within your procurement system, eliminating the need to log in to the eCommerce website separately. This makes the process more efficient and user-friendly.

Cost savings

Streamline your procurement process and reduce operational costs while eliminating unnecessary transactional touchpoints, resulting in significant savings that can be reinvested in other areas.

Increased Collaboration

Improve communication between buyers and sellers, automate the order process, and strengthen customer relationships. You'll have instant access to customer support and be able to easily communicate with your extended supply chain.

Why Seifware Integration

Seifware offers a revolutionary PunchOut e-procurement integration that streamlines the procurement process and increases efficiency.

What sets **Seifware** apart is its integration on any other purchasing application, its **dynamic configuration and mapping capabilities** for any given valid business scenario including multi-e-commerce platforms, punchout from any demand application, convert an order to inventory reservation or refill based on custom business rules, and enhanced security features such as tokens to prevent attacks on the Maximo server.

Create Requisition

Step 1 Step 2 Review and Submit

Requisition Line Items Filter > 1 - 2 of 2

Line	Line Type	Item	Description	Quantity	Required Date	Order Unit	Issue Unit	Line Cost
> 1	MATERIAL		TK83474324T FLASK,ERLENMEYER,GLASS,50ML,PK12	1.00	28/Apr/2023 08:42:07	PACKAGE		37.06
> 2	MATERIAL		TK83474325T PUMP CENTRIFUGAL 1/2HP	1.00	28/Apr/2023 08:42:07	EACH		616.07

New Row Add Favorite Item Vendor Catalog

1

Select a PunchOut Supplier Filter > 1 - 2 of 2

Company	Description
A0001	Grainger
A0002	Amazon

The screenshot displays a procurement system interface. At the top, a table header is highlighted in yellow, containing columns for Line, Quantity, Required Date, Item, Description, Vendor, and Store Location. The first row shows Line 1, Quantity 1.00, Required Date 4/27/23 12:50 PM, and Description Purex 7.5 hp 3450 RPM 184TDZ Frame. Below the table, the 'Details' section for Line 1 is shown. The 'Item' field is highlighted in yellow and contains the text 'Purex 7.5 hp 3450 RPM 184TDZ Frame 208-230/460V Three Ph'. To the right, a dropdown menu for 'Vendor' is highlighted in yellow, showing 'A0002' and 'Catalog # B01N0T2QKY'. A blue circle with the number '3' is positioned to the right of the vendor dropdown. A 'Long Description' window is open, showing the full item name and a metadata block highlighted in yellow: 'UPC=UPC-663001397090', 'category=OFFICE_PRODUCTS', 'subCategory=GENERAL_OFFICE_SUPPLIES', 'detailPageURL=https://www.amazon.ca/dp/B01N0T2QKY', 'ean=0663001397090', 'fulfilledBy=Winans Inc', 'itemCondition=New', 'preference=default', and 'qualifiedOffer=true'. The 'Unit Cost' is listed as 2,490.00.
